	SECTORAL IN	FORMATION					
SHELTER:	Percentage and Number of Houses Destroyed:		Majority in bad condition.				
	Housing Situation of Returning Population :		Most of returnees found their				
		houses damaged or destroyed.					
	<b>Comments:</b> In some cases people took or sold windows, timbers etc. In some others these were stolen.						
WATER:	Type of Potable Water Sources (and distance):	e p	Springs in Andkhoy up to 2-3hrs distance. Wells water is saline.				
	Availability of Potable water (%	): Available b	put far away.				
	Sanitation and Drainage:	None.	None.				
	<b>Comments:</b> The potable water sources are far away. Those who can not go to get water should buy a bucket of water for 5000 Afghani.						
AGRICULTURE:	Main crops:	Wheat, barley	y, melon and sesame.				
	Current Land Condition:	Better then la cultivated.	ast year, 25% of cultivable land is				
	Existing Irrigation schemes:	35 000 jiribs flood (descrit	of land irrigated during spring bed below).				
	Agri/tool Banks:	but due to sh	b be an informal borrowing system, ortage and drought, now people se other people's animals.				
	Animal Husbandry:	Very poor due	e to decimation of herds.
